

## *Learning from PPSR Programs in Northern California: Appendix*

### **A. Survey Fields**

1. What is the name of the Citizen Science/PPSR project you work with?
2. What organization or initiative sponsors this project?
3. What is your title or role with this project?
4. How many volunteers does your project work with annually:
  - 0-10
  - 11-25
  - 25-50
  - 51-100
  - 101-200
  - 201-500
  - 501-1,000
  - More than 1,000
5. How long has your project been active:
  - Less than 6 months
  - Less than 1 year
  - 1-3 years
  - 4-5 years
  - 5-10 years
  - More than 10 years
6. For the list below, please select the scientific activities that volunteers participate in as part of your project.
  - All/majority of volunteers
  - A small subset of volunteers
  - No volunteers
  - a. Choose or define question(s) for study
  - b. Gather information and resources
  - c. Develop explanations (hypotheses)
  - d. Design data collection methodologies
  - e. Collect samples and/or record data
  - f. Analyze samples
  - g. Analyze data
  - h. Interpret data and draw conclusions
  - i. Disseminate conclusions/ translate results into action
7. Describe any other notable project features or volunteer activities:
8. What is the scientific research purpose or environmental question your project addresses?

## Northern California PPSR Inventory Study Preliminary Findings

9. What kind of project evaluation or assessment, if any that you're aware of, does your project do?
10. Please list your project's primary goals:
11. In the list below are some common goals many PPSR projects have, please indicate which of these goals are important to your project, if at all:
  - Not important
  - Somewhat important
  - Not sure
  - Very important
  - Most important
  - a. Scientific research:
  - b. Youth education:
  - c. Adult education:
  - d. Conservation and/or management:
  - e. Social justice:
  - f. Environmental behaviors or other action:
  - g. Restoration:
  - h. Organization or membership development:
12. What project activities or strategies have been most important to your program's success?
13. Please briefly describe how or why you think these have been important.
14. What are 3 key challenges that you face in meeting your goals for citizen science work?
15. Please tell us 5 key organizations or people have influenced your work in citizen science/PPSR (whether they are focused on citizen science/ PPSR or not)?
16. Please list the kind of information you'd like to know about other citizen science programs that would be most helpful to you in your work?
17. What questions do you have about the impacts of citizen science that you would like to see addressed as part of a research project (educational? scientific? community-level outcomes? others?)?
18. Is this anything else you'd like us to consider in this study, or any of your responses you'd like to clarify?
19. Please provide your name and email and/or phone number\* (optional):
  - This information will NOT be passed on to any other organization and your answers to all questions will be made anonymous. We will use this information ONLY to contact you with follow-up questions and/or to let you know about later stages of this project - such as phone interviews or project leader meetings.
20. We would like to follow-up with you to find out more about your ideas and program. Would you be willing to be contacted for a phone interview later this fall?
  - Yes
  - No
