Summer Institute for teachers of grades 9-12 Transforming Instruction in High School

The *California Mathematics Project at UC Davis*

presents ...

Transforming Instruction in High School

A Summer Mathematics Institute for teachers of grades 9-12

Complete your registration and payment by May 28, 2015 to save on registration fees.

Join us July 20th – 24th as we examine critical high school concepts and standards and explore strategies and techniques for transforming the teaching of these concepts to more closely reflect the habits of mind identified in the Math Practice Standards.

Together with mathematics educators and teacher leaders, you will:

- ✓ Examine the CCSS-M for grades 9-12
- ✓ Explore critical high school concepts and standards; including transformational geometry, statistics, and modeling
- ✓ Experience investigations, modeling problems, and other tasks designed to make the math concepts “real” and support students in connecting math to the real world
- ✓ Gain the confidence needed to engage students in learning these new content standards
- ✓ Design lessons and activities you can use in your classroom to support students in learning math in ways that promote mathematical thinking and reasoning.

Dates: July 20-24, 2015

Times: Monday-Thursday, 8:30AM – 4:00PM (45 min lunch)
Friday, 8:30AM – 12:00PM
